Brand	Yale
Product type	Combination

Product Description

The Yale YE3CB Aluminium Open Shackle Combination Padlock is a lightweight, durable, and easy-to-use security solution ideal for protecting lockers, rucksacks, toolboxes, and other indoor valuables. Featuring a quality aluminium body with a protective black coating and a strong steel shackle, this padlock offers reliable everyday protection.

It is equipped with a resettable 3-digit combination mechanism, allowing you to easily set and reset your own memorable code from over 1,000 possible combinations. Built to withstand the elements, it has been tested for up to 48 hours of corrosion resistance and carries a CEN rating of 2.

This padlock is available in a range of body widths from 20mm to 38mm, with weights ranging from 15g to 90g. Please choose your preferred body width, weight, manufacturer reference, and barcode from the options below.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
