Specification Summary

Brand	Yale
Product type	Combination

Product Description

The Yale YTP1 TSA Combination Padlock is a highly reliable, Travel Sentry Approved (TSA) travel padlock designed to keep your luggage secure during transit. Constructed with a durable zinc body and a robust steel shackle, this padlock is ideal for securing suitcases, rucksacks, and travel bags.

One of its standout features is the built-in inspection indicator. If airport security personnel open your padlock using their secured TSA override keys, a red collar rises at the base of the shackle. This provides immediate visual confirmation that your luggage has been inspected, giving you peace of mind upon arrival.

The lock features a user-resettable 3-digit combination mechanism, eliminating the need to carry physical keys while travelling. Setting your own custom code is quick and simple, ensuring hassle-free security wherever your journey takes you.

Technical Specifications

- **Brand:** Yale
- **Manufacturer Reference:** YTP1/32/119/1
- **Body Width:** 32mm
- **Body Material:** Zinc

- **Shackle Material:** Steel
- **Finish:** Silver

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
