Specification Summary

Brand Abus

Product type Hasp & Staple

Product Description

The ABUS 125 Series High Security Hasp & Staple is a heavy-duty security solution designed to protect high-value assets in domestic, commercial, and industrial settings. Engineered to work in perfect harmony with high-security padlocks - such as the ABUS Granit™ range - this hasp ensures there are no weak links in your security setup. It is ideal for securing warehouse doors, gates, containers, and commercial vehicles.

Constructed from hardened steel with a corrosion-resistant black finish, the 125/150 is built to withstand both harsh weather and determined physical attacks. It features an extra-strong hinge and a hardened steel staple designed to resist sawing, cutting, and striking. For maximum protection against tampering, all mounting screws and bolts are completely concealed when the hasp is locked. The unit is supplied complete with high-security coach bolts and backing plates, allowing for a secure, through-bolt installation.

Technical Specifications

- **Brand:** ABUS
- **Model:** 125/150 C
- **Length:** 150mm
- **Width:** 60mm
- **Staple Bore Hole:** 15mm (accommodates padlocks with up to 15mm shackle diameter)
- **Security Level:** ABUS Global Protection Standard Level 9
- **Finish:** Black
- **Weight:** 828g
- **Fixings Included:** Coach bolts and backing plates

Key Features

- **Hardened Steel Construction:** Hardened steel staple and hinge pin resist hacksaw and physical attacks.
- **Extra-Strong Hinge:** Heavy-duty hinge design offers superior resistance against prying and striking.
- **Concealed Fixings:** All mounting hardware is fully hidden when the hasp is closed to prevent tampering.
- **Weather Resistant:** Corrosion-protected black finish makes it suitable for outdoor applications.
- **Complete Fixing Kit:** Includes coach bolts and backing plates for a robust, through-the-door installation.
- **High-Security Pairing:** Designed for use with high-security padlocks, including the ABUS Granit™ range.

Brand Profile

Abus

Security Tech Germany

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called “**Iron Rock**,” and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security, alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
