Specification Summary

Brand	Abus
Product type	Hasp & Staple

Product Description

The ABUS 130 Series High Security Hasp and Staple is a heavy-duty security solution designed to protect high-value assets in warehouses, containers, and commercial vehicles. Engineered to withstand severe physical attacks, this robust hasp is the ideal partner for high-security padlocks, particularly the CEN Grade 4 rated ABUS 37/60 Granit padlock.

Constructed from tough whiteheart malleable iron, the hasp offers exceptional resistance to physical force and harsh weather conditions. It features a through-hardened steel staple designed to accommodate padlocks with a shackle diameter of up to 14mm. Security is further enhanced by two hardened concealed hinge pins and hidden mounting screws, leaving virtually no exposed attack points for potential intruders.

Designed for flush-closing doors where the door leaf and frame are level, the ABUS 130/180 comes complete with coach bolts and backing plates for a secure, through-the-door installation.

Technical Specifications

- **Manufacturer Reference:** 130/180 C
- **Finish:** Black
- **Material:** Whiteheart malleable iron hasp with hardened steel staple

- **Length:** 180mm
- **Width:** 79mm
- **Staple Hole / Shackle Clearance:** 14mm
- **Weight:** 1.6kg
- **Fixings:** Includes coach bolts and backing plates

Key Features

- **High-Security Construction:** Tough whiteheart malleable iron body resists heavy physical attacks and harsh weather conditions.
- **Hardened Steel Staple:** Designed to fit padlocks with up to a 14mm shackle diameter, making it the perfect partner for the ABUS 37/60 Granit padlock.
- **Concealed Fixings:** Hidden screws and two hardened concealed hinge pins prevent tampering and leave no exposed attack surfaces.
- **Complete Fitting Kit:** Supplied with heavy-duty coach bolts and backing plates for a robust, secure installation.
- **Versatile Application:** Ideal for securing flush-closing doors on warehouses, containers, lorries, and gates.

Brand Profile

Abus

Security Tech Germany

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called “**Iron Rock**,” and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security, alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
