Specification Summary

Brand Abus

Product type Padbolt

Product Description

The ABUS 300 Series Locking Padbolt is a robust, high-quality security solution designed to protect gates, sheds, garages, and outbuildings. Constructed from durable steel, this padbolt is engineered for use with padlocks featuring a shackle diameter of up to 13mm, providing a reliable layer of physical security.

To withstand forced entry attempts, the padbolt features a hardened steel bolt that resists cutting and attack. It is also corrosion-protected, making it ideal for external use where it must endure the elements. For added security, all fixing screws are completely concealed when the bolt is closed, deterring opportunist thieves from tampering with the installation.

This versatile padbolt is available in multiple sizes and configurations, with lengths of 10cm or 12cm, widths of 39mm or 46mm, and bolt diameters of 10mm or 11mm. Please choose your required size, manufacturer reference, and specifications from the options below.

Technical Specifications

- **Brand:** Abus
- **Finish:** Steel
- **Length:** 10cm or 12cm (please choose from the options below)
- **Width:** 39mm or 46mm (please choose from the options below)
- **Bolt Diameter:** 10mm or 11mm (please choose from the options below)
- **Horizontal Clearance:** 10mm or 11mm (please choose from the options below)
- **Weight:** 211g or 237g (please choose from the options below)
- **Manufacturer Reference:** 300/100 C or 300/120 C (please choose from the options below)
- **Compatible Padlock Shackle:** Up to 13mm diameter
- **Packaging:** Visi pack (1 per pack)

Brand Profile

Abus

Security Tech Germany

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called “**Iron Rock**,” and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security, alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
