Product Description

The ABUS 65 Series Brass Long Shackle Padlock is a highly reliable security solution designed for low to medium security requirements. Part of the best-selling ABUS 65 range, these padlocks feature a solid brass body and non-corrosive internal components, ensuring excellent longevity and performance. The extended long shackle design provides extra vertical clearance, making it ideal for securing hard-to-reach areas, gates, chains, and lockers.

For enhanced security, the padlock is double-bolted to resist pulling and twisting attacks. It features a precision pin tumbler cylinder with anti-pick mushroom pins to protect against manipulation. Depending on the size, the shackle is made from hardened steel (for 30mm bodies) or through-hardened steel alloy (for 40mm and above), finished with NANO PROTECT™ plating for superior corrosion resistance.

This padlock is highly versatile and available in a wide range of configurations. Customers can choose from body widths ranging from 30mm to 50mm, shackle diameters from 5mm to 8mm, and vertical clearances from 40mm to 80mm. It is also available in Keyed to Differ (KD) or Keyed Alike (KA) options, and in either boxed or visi packaging. Please select your preferred options from the list below.

Brand Profile

Abus

Security Tech Germany

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called “**Iron Rock**,” and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security, alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
