**Product Description**

The ABUS 65 Series is a highly popular, best-selling range of solid brass open shackle padlocks, designed to deliver reliable security for everyday domestic and commercial applications. Built with a solid brass body and non-corrosive internal components, these padlocks offer excellent durability and weather resistance.

For enhanced physical protection, the padlocks feature a hardened steel shackle on smaller sizes (15mm to 30mm) and a through-hardened steel alloy shackle on larger sizes (40mm and above). Security is further bolstered by a double-bolted shackle design on larger models and a precision pin tumbler cylinder equipped with anti-pick mushroom pins.

This versatile series is available in a variety of body widths, shackle diameters, and keying configurations - including Keyed to Differ, Keyed Alike, and Master Keyed options. Please select your preferred body width, shackle size, and keying option from the dropdown menus below to find the perfect fit for your security needs.

## Brand Profile

Abus

Security Tech Germany

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called “**Iron Rock**,” and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security, alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
