## Product Description

The ABUS 70IB Series Aqua Safe Marine Brass Long Stainless Steel Shackle Padlock is designed to deliver reliable security in extreme outdoor and maritime conditions. Featuring a solid brass lock body encased in a shock-absorbing vinyl cover, it protects sensitive surfaces from scratches while offering excellent resistance against severe weather. The padlock is equipped with a stainless steel long shackle, providing maximum corrosion resistance and a longer reach for versatile locking applications.

To ensure long-lasting performance in wet or dirty environments, the sealed lock body features a protective keyhole cover and integrated drainage channels that divert water and dirt away from the inner mechanism. Inside, a precision pin tumbler cylinder with anti-pick mushroom pins offers reliable protection against manipulation.

This padlock is available in multiple sizes and configurations. You can choose from body widths of 53mm or 59mm, shackle diameters of 8mm or 9mm, and vertical clearances of 63mm or 80mm. It is also available in Keyed Alike or Keyed To Differ options, and comes in either boxed or visi packaging. Please select your preferred options from the choices below.

## Brand Profile

Abus

Security Tech Germany

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called “**Iron Rock**,” and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security, alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
