Specification Summary

Brand	Abus
Product type	Open Shackle

Product Description

The ABUS 88 Series 'Plus' Rekeyable Brass Open Shackle Padlock is a premium-quality security solution designed to protect high-value items in demanding environments. Featuring a solid brass body with protective chrome plating, this padlock offers exceptional corrosion resistance, making it ideal for both indoor and outdoor use.

At its core is the high-security ABUS Plus disc cylinder mechanism, which provides advanced protection against drilling, pulling, and manipulation attacks. The lock is equipped with a through-hardened steel alloy shackle to resist saw attacks, while a ball-bearing locking mechanism prevents lever and torsion attacks. As a rekeyable padlock, it

can be easily adjusted to match existing keys within the ABUS Plus system.

This padlock is available in multiple sizes and configurations. Please choose your preferred body width, shackle diameter, clearance dimensions, packaging, and weight from the options below to find the perfect fit for your security needs.

Technical Specifications

- **Body Width:** 50mm or 55mm (please choose from the options below)
- **Shackle Diameter:** 9.5mm or 11mm (please choose from the options below)
- **Horizontal Clearance:** 24mm or 25mm (please choose from the options below)
- **Vertical Clearance:** 26mm or 31mm (please choose from the options below)
- **Weight:** 338g or 440g (please choose from the options below)
- **Body Material:** Solid brass with chrome plating
- **Shackle Material:** Through-hardened steel alloy
- **Cylinder System:** ABUS Plus disc cylinder
- **Mechanism:** Rekeyable
- **Key Differs:** 250,000 manufactured key differs
- **Standards:** CEN Grade 3 (50mm variant)
- **Packaging:** Boxed or Visi (please choose from the options below)

Key Features

- **High-Security Cylinder:** ABUS Plus disc cylinder resists drill, pull, and manipulation attacks.
- **Corrosion Protection:** Chrome-plated solid brass body provides excellent resistance to harsh weather and outdoor conditions.
- **Attack Resistant:** Through-hardened steel alloy shackle resists saw attacks, while ball-bearing locking prevents lever and torsion attacks.
- **Rekeyable Design:** Allows the padlock to be rekeyed to match existing ABUS Plus keys for convenience.
- **Multiple Options:** Available in a range of sizes, clearances, and packaging types - please select from the options below.

Brand Profile

Abus

Security Tech Germany

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called “**Iron Rock**,” and the business expanded from there into a broad security portfolio.

Today, ABUS's headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security, alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you'll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don't mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
