Specification Summary

Brand	Adams Rite
Product type	Standard

Product Description

The Adams Rite 281-700 Standard L Bracket is a high-quality mounting solution specifically designed for outward-opening doors using the Adams Rite Armlock 281 series electromagnetic locks.

This adjustable L bracket is ideal for installations where there is insufficient space to mount the maglock directly to the head of the door frame, such as on narrow door reveals. By allowing the magnet to be securely fitted to the frame face, it ensures a stable and precise installation. Constructed from durable satin anodised aluminium, this bracket is suitable for use on aluminium, timber, and steel doors, providing a clean and professional finish.

Please note that for double magnets, two brackets are required.

Technical Specifications

- **Brand:** Adams Rite
- **Manufacturer Reference:** 281-700
- **Finish:** Satin Anodised Aluminium
- **Compatibility:** Adams Rite 281 series electromagnetic locks

- **Suitable Door Types:** Aluminium, timber, and steel doors

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as “*the Aluminum Hardware Authority*”—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches, electric strikes, exit devices/panic hardware, trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
