Specification Summary

Brand Adams Rite

Product type Screw In

Product Description

The Adams Rite 4036 Screw-In Cylinder is a reliable 5-pin cylinder designed specifically for use with metal door mortice locks. It is ideal for operating Adams Rite deadlocks and deadlatches, as well as most other standard metal door lock mechanisms.

Manufactured to precise tolerances, this cylinder features a durable anodised aluminium finish that offers excellent resistance to wear and tear. With 22mm of thread and a standard 29.4mm body diameter, it provides a secure and straightforward fit. The cylinder is supplied as keyed to differ with two keys included, and in-house keyed alike options are available to suit your specific security requirements.

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as “*the Aluminum Hardware Authority*”—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches, electric strikes, exit devices/panic hardware, trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
