**Specification Summary**

**Brand** Adams Rite

**Product type** Slim Line

**Product Description**

The Adams Rite Armlock 261 Series Double Magnet is a high-quality, surface-mounted electromagnetic locking solution designed specifically for double doors. Combining a compact case size with clean, modern aesthetics, this double magnet is ideal for facilitating remote access and exit control on outward opening timber, aluminium, or steel doors.

Operating on a fail-unlocked (fail-safe) mechanism, the Armlock 261 ensures that doors will automatically unlock in the event of a power failure, maintaining vital emergency escape routes. Each magnet provides a robust holding force of at least 250kg (550lbs) per door, offering reliable security for commercial and public buildings.

This versatile double magnet is available in multiple configurations to suit your specific security requirements. You can choose between monitored (featuring a Hall Effect monitoring sensor) and non-monitored versions, which also vary in weight (3.6kg or 3.8kg) and manufacturer reference (261-200 or 261-205). Please select your preferred monitoring option, weight, manufacturer reference, and barcode from the options below.

**Technical Specifications**

- **Brand:** Adams Rite

- **Finish:** Satin Anodised Aluminium
- **Fitting:** Surface mounted
- **Operation:** Fail unlocked (fail-safe)
- **Holding Force:** 250kg (550lbs) per door
- **Input Voltage:** 12/24V DC
- **Current Consumption:** 0.96A at 12V DC / 0.48A at 24V DC
- **Magnet Dimensions:** 500mm (L) x 42mm (H) x 25mm (D)
- **Armature Dimensions:** 160mm (L) x 36mm (H) x 11.3mm (D)
- **Material:** Aluminium
- **Suitable Doors:** Outward opening timber, aluminium, or steel double doors
- **Guarantee:** 3 Years
- **Monitored Option:** Yes or No (please choose from the options below)
- **Weight:** 3.6kg or 3.8kg (please choose from the options below)
- **Manufacturer Reference:** 261-200 or 261-205 (please choose from the options below)
- **Barcode:** 5055120600819 or 5055120600833 (please choose from the options below)

## Key Features

- **Fail Unlocked Operation:** Automatically releases during a power cut to ensure safe emergency egress.
- **High Holding Force:** Delivers a minimum of 250kg (550lbs) holding force per door for reliable security.
- **Aesthetic & Compact Design:** Combines a slimline, compact case size with a clean satin anodised aluminium finish.
- **Versatile Application:** Suitable for surface mounting on outward opening timber, aluminium, or steel double doors.
- **Flexible Monitoring:** Available in both monitored and non-monitored options to suit your access control system.
- **CE Marked:** Fully compliant with relevant European safety standards.

## Brand Profile

Adams Rite

**Adams Rite** is a long-running American door-hardware brand best known as “*the Aluminum Hardware Authority*”—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches, electric strikes, exit devices/panic hardware, trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

**Adams Rite is part of ASSA ABLOY**, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
