Specification Summary

Brand	Asec
Product type	Till & Drawer Lock

Product Description

The Asec 1 Lever Till Lock is a reliable, screw-fixed security solution designed for securing drawers, tills, and cabinet doors. Typically mounted on the inside of a drawer, this traditional cut till lock operates by turning the key to extend the deadbolt, keeping cash, documents, or personal items securely locked away.

Finished in an attractive satin brass, this lock blends seamlessly with classic wooden furniture and commercial till setups. It features a simple yet effective 1-lever mechanism and is supplied keyed alike as standard, making it ideal for environments where multiple drawers or tills need to be operated using the same key.

This lock is available in multiple case widths and backsets to suit your specific installation requirements. Please select your preferred size and specification from the options below.

Technical Specifications

- **Brand:** Asec
- **Mechanism:** 1 Lever
- **Finish:** Satin Brass
- **Keying:** Keyed Alike
- **Keys Supplied:** 1
- **Case Height:** 38mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
