Specification Summary

Brand	Asec
Product type	Mortice Latch

Product Description

The Asec 75mm Press Lock is a highly versatile and reliable locking solution, particularly popular for securing garden sheds, outbuildings, and gates. Designed for simplicity and ease of use, this press lock features a durable black finish that blends seamlessly with traditional timber doors and outdoor ironmongery.

One of the standout benefits of this lock is its universal design. It is fully suitable for both inwards and outwards opening doors, and can be installed on doors hinged on either the left or the right. This makes it an incredibly flexible option for a wide range of domestic applications. Supplied complete with two keys, the Asec press lock provides a straightforward yet effective way to keep your outdoor storage secure.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
