Product type Miscellaneous

Product Description

The Asec AA33 Thumbturn is a practical and stylish security accessory designed to operate a mortice rack bolt. Perfect for retrofitting to existing doors, this thumbturn replaces the need for a standard loose spline key, offering a convenient, permanent solution for locking and unlocking security bolts from the inside.

Crafted with an elegant oval turn mounted on a circular rose, it provides a comfortable grip and smooth operation. The thumbturn features a splined spindle that engages directly with the mortice rack bolt mechanism. This polished brass version adds a classic, high-quality touch to your door furniture while enhancing home security and convenience.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS4551
- **Barcode:** 5036286132239
- **Finish:** Polished Brass
- **Spindle Type:** Splined spindle
- **Packaging:** Bagged
- **Pack Quantity:** 1
- **Weight:** 425g

Key Features

- **Convenient Retrofit:** Designed to be easily retrofitted to doors with existing security bolts.
- **Keyless Inside Operation:** Allows quick locking and unlocking of a mortice rack bolt without needing a separate key.
- **Ergonomic Oval Design:** Features an oval thumbturn on a circular rose for a comfortable grip and easy turning.
- **Polished Brass Finish:** Offers a classic and clean aesthetic to match existing door furniture.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that “*would never become available through the large multiple retailers.*”

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
