Specification Summary

Brand	Asec
Product type	DDA

Product Description

The Asec All Active Small Push Plate Exit Button is an ideal solution for high-traffic and mixed-use environments. Designed for ease of use, the entire face of the plate acts as an active touch-point, allowing users to activate the switch by pressing anywhere on its surface. This "all-active" design makes it highly accessible and straightforward to operate for all users, particularly in areas with diverse accessibility needs.

Constructed with a robust 2mm stainless steel mounting plate, this exit button is built to withstand frequent use. It features a low-profile switch at the rear, keeping the overall depth minimal. The "Exit" legend is cleanly etched directly into the plate to ensure long-lasting visibility that won't wear away over time.

The unit comes complete with a 25mm gang box and security screws, facilitating a secure surface-mounted installation. With 5-amp double-pole contacts and support for both normally open (N/O) and normally closed (N/C) outputs, it offers versatile integration with standard 12V or 24V DC access control systems.

Technical Specifications

- **Brand:** Asec
- **Part Number:** AS9872
- **Input Voltage:** 12/24V DC
- **Current Rating:** 5A @ 30V
- **Outputs:** N/O & N/C
- **Operation:** Momentary
- **Connections:** 2 to 4
- **Fitting:** Surface
- **Finish:** Stainless Steel
- **Legend:** Exit
- **Width:** 85mm
- **Depth:** 27mm
- **Diameter:** 87mm
- **Weight:** 170g

Key Features

- **All-Active Plate:** Touch-anywhere action makes it incredibly easy to operate, ideal for mixed-traffic areas.
- **Durable Construction:** Features a robust 2mm stainless steel mounting plate with an etched "Exit" legend that won't wear off.
- **Low-Profile Design:** Equipped with a low-profile switch at the rear of the plate to maintain a neat, unobtrusive profile.
- **Complete Kit:** Supplied with a 25mm gang box and security screws for a secure surface-mount installation.
- **Double Pole Contacts:** 5-amp double pole contacts provide reliable and versatile wiring options.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
