Product Description

The Asec Antique Style Bell Push is an elegant, solid metal door accessory designed to add a touch of classic charm to your home's entryway. Featuring a traditional antique-style design, this bell push is ideal for period properties, cottage-style doors, or anyone looking to introduce a rustic, vintage aesthetic to their front door.

Crafted from robust solid metal, it is built to withstand the elements while maintaining its striking appearance. The durable black finish provides a clean, timeless look that complements a wide range of door hardware and finishes. Measuring 120mm, it offers a substantial yet elegant presence on your door frame.

Whether you are restoring a traditional property or simply updating your current door furniture, the Asec Antique Style Bell Push offers a perfect blend of classic style and reliable functionality.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
