**Specification Summary**

Brand Asec

Product type Pull

**Product Description**

The Asec Bolt Fix Stainless Steel Pull Handle is a high-quality, durable round bar D-pull handle designed for both commercial and residential applications. Crafted from robust Grade 304 stainless steel, it offers excellent corrosion resistance and features a modern satin stainless steel finish that minimises the appearance of fingerprints and wear.

This 19mm diameter pull handle is designed for secure bolt-through fixing, ensuring a stable and long-lasting installation on timber, metal, or composite doors. It comes complete with the necessary fixing screws for a straightforward setup.

We offer this pull handle in multiple lengths, weights, and manufacturer references. Please select your preferred options from the choices below to suit your door's requirements.

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
