Specification Summary

Brand	Asec
Product type	Asec

Product Description

The Asec Boxed Power Supply is a highly reliable power solution housed in a robust, powder-coated steel enclosure. Designed primarily for access control systems and security installations, it provides a smoothed, regulated DC output to keep your equipment running safely and efficiently. It features an integrated battery charging circuit and deep discharge protection to support backup batteries, ensuring continuous operation during a mains

power failure.

This versatile power supply is available in multiple configurations to suit various system requirements. Options include output voltages of 12V DC (13.8V) or 24V DC (27.6V), with output currents ranging from 1 Amp up to 5 Amp. The units are housed in either small or large lockable metal boxes, accommodating different backup battery capacities. Please choose your required voltage, current, and box size from the options below.

Technical Specifications

- **Input Voltage:** 230V AC / 240V AC mains
- **Output Voltage:** 13.8V DC (12V DC) or 27.6V DC (24V DC) (model dependent)
- **Output Current:** 1 Amp, 2 Amp, 3 Amp, or 5 Amp (model dependent)
- **IP Rating:** IP41 (Front only)
- **Material:** 1.2mm powder-coated steel (White finish)
- **Small Box Dimensions:** 225mm (H) x 195mm (W) x 80mm (D)
- **Large Box Dimensions:** 310mm (H) x 335mm (W) x 85mm (D)
- **Backup Battery Capacity:** Up to 7Ah or 2 x 7Ah (model dependent)

Key Features

- Smoothed and regulated DC output for stable and reliable performance
- Integrated battery charging circuit with deep discharge protection
- Secure, key-lockable metal hinged box for physical protection
- Multi-LED visual fault indicators for straightforward status monitoring
- Built-in tamper protection and output fuse protection
- Multiple voltage, current, and casing options available to suit your specific installation

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that “*would never become available through the large multiple retailers.*”

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
