Product Description

The Asec 'Caution: Mind Your Head' hazard warning sign is a highly effective safety solution designed to alert staff, visitors, and the general public to potential overhead hazards. Ideal for low doorways, cellar entrances, stairwells, and exposed beams, this sign helps prevent accidental head injuries and ensures clear hazard communication in both commercial and domestic environments.

Featuring a highly visible black and yellow design, the sign is instantly recognisable. It is manufactured from durable, self-adhesive PVC, allowing for quick and hassle-free installation on any clean, dry, and flat surface. With no drilling or additional fixings required, it provides a clean and professional finish in seconds.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
