## Specification Summary

Brand Asec

Product type Lever

## Product Description

The Asec Closed Shackle Lever Padlock is a robust padlock designed specifically for external use. Constructed with a laminated steel body, it offers excellent weather resistance and durability, making it an ideal choice for securing outdoor gates, sheds, warehouses, and commercial premises.

This padlock features a closed shackle design, which significantly reduces the exposed area of the shackle, protecting it against attack from bolt croppers, saws, and other common cutting tools. The hardened forged shackle provides additional resistance against forced entry.

This padlock is available in multiple configurations to suit your security requirements. You can choose between a 5-lever or 6-lever mechanism, body widths of 66mm or 70mm, and weights of 650g or 740g. It is also offered in two finishes: a painted grey finish or a zinc-plated finish. Please select your preferred body width, finish, mechanism, and manufacturer reference (AS2603 or AS2610) from the options below.

## Technical Specifications

- **Body Width:** 66mm or 70mm (please choose from the options below)
- **Body Height:** 88mm
- **Body Depth:** 21mm
- **Shackle Diameter:** 11mm
- **Vertical Clearance:** 24mm
- **Horizontal Clearance:** 15mm
- **Mechanism:** 5 Lever or 6 Lever (please choose from the options below)
- **Finish:** Grey or Zinc Plated (please choose from the options below)
- **Weight:** 650g or 740g (please choose from the options below)
- **Keying:** Keyed To Differ (Keyed Alike options available)
- **Pack Quantity:** 1
- **Packaging:** Boxed

## Key Features

- **Closed Shackle Design:** Minimises exposure to protect against cutting and cropping attacks.
- **Laminated Steel Body:** Highly durable construction, ideal for outdoor and external use.
- **Hardened Forged Shackle:** Offers superior resistance against physical attacks and forced entry.
- **Weather Resistant:** Zinc plated or painted finishes provide excellent protection against the elements.
- **Multiple Options:** Available in 5-lever and 6-lever mechanisms to suit your security requirements.

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
