Specification Summary

Brand	Asec
Product type	Panic Bolt

Product Description

The Asec Double Rebated Panic Bolt Set is a high-quality, reliable emergency exit solution designed specifically for double leaf, outward-opening fire escape route doors. Fully compliant with BS EN 1125:2008, this complete set ensures safe and swift egress from public buildings during an emergency.

The set comprises a single panic bolt for the secondary opening leaf, a rim panic latch for the primary opening leaf, and a double door strike to securely latch the doors together. The system is operated by a simple push bar or pad, instantly disengaging the bolts to allow immediate exit. It is suitable for heavy-duty applications, supporting door leaves up to 200kg in weight.

This product is available in multiple handing options, including Left Handed and Reversible configurations, to suit your specific installation requirements. Please select your preferred handing and manufacturer reference from the options below.

Technical Specifications

- **Standards:** Compliant with BS EN 1125:2008
- **Application:** Double leaf outward-opening fire escape doors
- **Maximum Door Height:** 2500mm per leaf

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that “*would never become available through the large multiple retailers.*”

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
