Specification Summary

Brand	Asec
Product type	Long Shackle

Product Description

The Asec KD Long Shackle Brass Padlock is a reliable security solution designed to protect your belongings in a variety of everyday applications. Featuring a solid brass body and a hardened steel shackle, this padlock provides robust resistance against cutting and sawing. It is ideal for securing sheds, gates, lockers, vans, luggage, bicycles, and more.

This padlock is keyed to differ (KD), meaning each lock operates on its own unique key profile. It features a double-locking mechanism for enhanced security and pull resistance. The extended long shackle design provides additional vertical clearance, making it perfect for securing awkwardly positioned or hard-to-reach locking points.

Available in multiple body widths, shackle diameters, and clearances, this padlock can be selected to suit your specific security requirements. Please choose your preferred size and specifications from the options below.

Technical Specifications

- **Brand:** Asec
- **Keying:** Keyed to Differ (KD)
- **Body Material:** Solid Brass
- **Shackle Material:** Hardened Steel
- **Body Width:** 30mm, 40mm, or 50mm (please choose from the options below)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
