Specification Summary

Brand	Asec
Product type	Fire Door & Access

Product Description

The Asec 'Keep Out' 200mm x 300mm PVC Self-Adhesive Sign is a mandatory access sign designed to clearly identify restricted areas and maintain security on your premises. Featuring a high-contrast blue and white design with a prominent "Keep Out" legend, this sign provides a clear visual instruction that is instantly recognisable.

Manufactured from durable, semi-rigid PVC, this sign is built to withstand everyday wear and tear in both commercial and residential environments. It features a strong self-adhesive backing, allowing for quick, tool-free installation on any clean, flat surface, including doors, walls, and partitions. This makes it an ideal choice for marking fire doors, staff-only areas, and other restricted access zones.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
