## Product Description

The Asec Mortice Nightlatch Rebate Kit is an essential accessory designed specifically for use with the Asec dual profile mortice nightlatch. It allows the nightlatch case to be successfully installed on double rebated doors, such as French doors, ensuring a secure and professional finish.

This rebate kit is fully reversible, making it suitable for both left and right-handed door configurations. It is available in multiple finishes, including Polished Brass and Satin Chrome, to seamlessly match your existing door ironmongery. Please select your preferred finish, manufacturer reference, and barcode from the options below to find the correct kit for your door.

With a robust construction and a weight of 160g, this rebate kit provides a reliable solution for securing rebated doors without compromising on style or functionality.

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
