## Specification Summary

Brand Asec

Product type Mortice

## Product Description

The Asec Mortice Release Faceplate is a high-quality accessory designed to convert compatible Asec electric releases for mortice applications. This faceplate allows you to adapt your existing electric strike to fit seamlessly within a mortice door frame, ensuring a clean, secure, and professional installation.

This faceplate is compatible with a wide range of Asec electric releases, including the A1, A2, A3, A6, A7, A21, A25, and A95 models.

It is available in multiple finishes, including Grey and Polished Brass, with weights ranging from 90g to 100g depending on your selection. Please choose your preferred finish, weight, and manufacturer reference from the options below to match your door hardware and installation requirements.

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
