Specification Summary

Brand	Asec
Product type	Panic Latch

Product Description

The Asec Push Pad Panic Latch is a reliable emergency exit solution designed to provide fast and intuitive egress during an emergency. Certified to BS EN 179:2008, it is ideal for use on single doors as well as the first opening leaf of double rebated door applications. This robust latch is suitable for door leaves up to 2500mm high, 1300mm wide, and with a maximum weight of 200kg.

Supplied with a complete fixing pack suitable for both timber and metal doorsets, this panic latch offers a straightforward installation process. Its clean silver enamelled finish ensures it blends seamlessly into modern commercial and public buildings.

This product is available in multiple handing configurations, weights, and manufacturer references to suit your specific installation needs. Please choose your preferred options from the selection below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
