Specification Summary

Brand Asec

Product type Key Ring

Product Description

The Asec Spiral Key Ring is a highly flexible and practical accessory designed to keep your keys secure yet easily accessible. Perfect for everyday use, commercial environments, or busy workplaces, these key rings are supplied on a convenient card of 12.

Each key ring is equipped with a secure belt loop clip, allowing you to attach it easily to your belt, trousers, or bag. The durable spiral cord is designed to stretch up to approximately 1 metre, providing plenty of reach so you can use your keys without having to unclip them.

These spiral key rings are available in a choice of finishes, including Bright Colours (featuring vibrant shades like neon light blue, blue, pink, red, green, and lime green) and Dark Colours. Depending on your selection, they are available in different weights (220g or 240g), barcodes, and manufacturer references (AS1234 or AS1250). Please select your preferred options from the list below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
