Product Description

The Asec Sprung Antique Style Mortice Knobs combine traditional charm with modern functionality. Crafted from solid metal, these high-quality door knobs feature an elegant antique-style design finished in a classic black, making them an excellent choice for period properties, rustic interiors, or adding a touch of character to contemporary doors.

Unlike traditional unsprung mortice knobs that require heavy-duty latches, this set is fully sprung. The integrated spring mechanism ensures the knobs return smoothly to their original position after use, allowing them to be used with standard mortice latches and locks. With a 55mm diameter, they provide a comfortable grip and a substantial, premium feel.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
