Specification Summary

Brand	Asec
Product type	Hook

Product Description

The Asec Stainless Steel Hat & Coat Hook with Buffer is a highly practical dual-purpose hardware solution, ideal for installation on the back of doors that open directly onto a wall. By combining a robust hanging hook with an integrated rubber door buffer, this product provides a convenient storage solution for coats, hats, and bags while protecting your walls and door handles from impact damage.

Manufactured from premium Grade 304 stainless steel, this hook offers exceptional durability and resistance to corrosion. This makes it an excellent choice for high-traffic or damp environments, such as commercial washrooms, toilet cubicles, changing rooms, offices, and residential bathrooms.

With its sleek, modern stainless steel finish and robust construction, the Asec AS4521 hook seamlessly blends into any contemporary interior. It is supplied individually bagged, ready for straightforward installation.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS4521
- **Material:** Grade 304 Stainless Steel
- **Finish:** Stainless Steel
- **Length:** 112mm (11.2cm)
- **Width:** 19.5mm
- **Weight:** 98g
- **Pack Quantity:** 1

Key Features

- **Dual-Purpose Design:** Functions as both a spacious hat and coat hook and an integrated door buffer to prevent wall damage.
- **Grade 304 Stainless Steel:** Highly durable construction with excellent corrosion resistance, ideal for humid environments like bathrooms and cubicles.
- **Wall Protection:** The built-in rubber buffer absorbs impact when the door is opened fully against a wall.
- **Versatile Application:** Perfect for commercial washrooms, offices, schools, changing rooms, and domestic use.
- **Sleek Aesthetics:** Modern stainless steel finish that complements contemporary architectural ironmongery.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that “*would never become available through the large multiple retailers.*”

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
