Specification Summary

Brand	Asec
Product type	Flush Bolts

Product Description

The Asec Straight Flush Bolt is a reliable and stylish lever-action flush bolt designed to provide discreet security for your doors. Commonly used to secure the inactive leaf of a pair of double doors, this flush bolt is recessed into the door edge, offering a flush, neat finish that does not interfere with the door's operation or aesthetics.

Featuring a smooth lever-action mechanism, it allows for quick and effortless locking and unlocking. To suit your specific installation requirements and interior decor, this flush bolt is available in a choice of lengths, weights, and high-quality finishes. Please select your preferred length, finish, and manufacturer reference from the options below.

Each bolt is individually bagged for protection during transit and comes complete with the necessary components for installation.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that “*would never become available through the large multiple retailers.*”

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
