Product Description

The Asec Strong Butt Hinge is an extra-strong, heavy-duty hinge designed for general-purpose door installations. Sold as a pair, these hinges feature cranked knuckles and a fixed riveted pin to ensure reliable, long-lasting performance. They are designed with countersunk screw holes, allowing screws to sit flush with the hinge surface for a clean, professional finish.

These high-quality hinges are available in a choice of lengths and weights to suit your specific requirements. Please select your preferred length, weight, manufacturer reference, and barcode from the options below to find the perfect fit for your project.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
