Brand Asec

Product type Indicator

Product Description

The Asec Toilet Indicator Bolt is a robust and aesthetically pleasing privacy bolt designed for use on bathroom and toilet cubicle doors in both commercial and domestic settings. It features a simple turn-knob operation on the inside that extends the bolt and changes the external indicator to show whether the cubicle is vacant or occupied.

For safety and peace of mind, the external indicator plate is equipped with a slotted emergency override. This release mechanism allows the door to be quickly unlocked from the outside using a coin or flat-head screwdriver if required. Constructed from high-quality metal, this durable bolt is built to withstand frequent use in busy environments such as offices, schools, and public facilities.

This indicator bolt is available in multiple finishes, including Chrome Plated, Polished Brass, and Satin Nickel, to match your existing door hardware. Please select your preferred finish and manufacturer reference from the options below. Each pack is supplied complete with all necessary fixings for a straightforward surface-mounted installation.

Technical Specifications

- **Body Height:** 40mm
- **Body Width:** 66mm
- **Body Thickness:** 12.5mm
- **Indicator Size:** 66mm x 42mm
- **Spindle Length:** 65mm
- **Weight:** 230g

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories.**

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand's identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
