**Specification Summary**

Brand Axim

Product type Transom

**Product Description**

The Axim TC-9903 Concealed Transom Door Closer (body only) is a robust and reliable overhead closer designed for concealed installation within the transom bar of a door frame. This size 3 closer is suitable for doors measuring between 951mm and 1150mm in width, with a maximum weight capacity of up to 100kg.

This universal closer is highly adjustable, offering independent control over both latching and sweep speeds, as well as a mechanical backcheck to prevent damage from over-opening. It features captivated adjustment screws to prevent accidental removal during setup. Ideal for retrofitting, the TC-9903 can directly replace older Axim 8800 series, Peters Jackson, Newman Tonks, Ryobi, and other leading transom closers without requiring costly modifications to the door or frame.

It is available in both Hold Open (90°) and Non-Hold Open versions, with manufacturer references TC-9903-00 and TC-9903-90 respectively. Please select your preferred hold-open option and barcode from the options below. Each unit is supplied complete with fixings, bearing plates, and fitting instructions.

## Technical Specifications

- **Brand:** Axim
- **Model Series:** TC-9903
- **Strength Size:** 3
- **Max Door Width:** 951mm to 1150mm
- **Max Door Weight:** 100kg
- **Spindle Height:** 12mm
- **Dimensions:** 293mm (Length) x 94mm (Width) x 94mm (Depth)
- **Finish:** Satin Anodised Aluminium
- **Handing:** Reversible (Universal)
- **Adjustable Closing Speed:** Yes
- **Adjustable Latch Action:** Yes
- **Backcheck:** Yes (Mechanical)

## Brand Profile

Axim

**AXIM (Axim Architectural Hardware)** is a UK-focused architectural door hardware brand best known for its **transom closers / concealed overhead door closers**, plus the broader “commercial aluminium door” hardware ecosystem that goes with them. The brand was **originally formed in 1987** and is built around supplying a **comprehensive, in-stock range** through a **pan-European distributor network**.

AXIM's range is basically “everything you'd spec around a commercial entrance door”:

- **Concealed transom closers** (their signature category: TC series like **TC8800, TC9600, TC9900**)
- **Surface mounted overhead closers** (FC series)
- **Floor springs** (FS series)
- Plus the rest of the door-hardware toolbox: **panic exit devices, electric strikes, deadlatches, flush bolts, letter plates, locks, handles**

This is why AXIM shows up a lot in aluminium door setups: it's designed to be a **reliable, spec-friendly “one brand covers most of the door”** option rather than a single hero product.
