Specification Summary

Brand Borg digital locks

Product type Borg digital locks

Product Description

The Borg Locks BL5409 is a robust, medium to heavy-duty mechanical digital lock designed for demanding environments where standard locks might fail. Featuring a fully clutched flat bar lever handle, this keypad is built to withstand rigorous daily use while protecting the internal mechanism from forced entry attempts.

This model comes complete with an internal handle and a 60x72mm mortice nightlatch with a 60mm backset. It is highly versatile, making it suitable for timber, composite, aluminium, and steel doors in both internal and sheltered external applications. For added convenience, the BL5409 features an optional free passage mode, allowing you to temporarily bypass the coding chamber for unrestricted access without entering a code.

The BL5409 is available in a choice of high-quality finishes, including Polished Brass, Polished Chrome, Satin Chrome, and Satin Stainless. Please select your preferred finish from the options below.

Technical Specifications

- **Series:** Borg BL5000 Series
- **Model:** BL5409
- **Handle Type:** Fully clutched flat bar lever
- **Lockcase:** 60x72mm mortice nightlatch
- **Backset:** 60mm
- **Latch Bolt:** 12.5mm projection
- **Key Override:** Euro profile cylinder hole (cylinder sold separately)
- **Handing:** Non-handed (fully reversible)
- **Door Compatibility:** Timber, composite, aluminium, and steel doors
- **Usage:** Internal and sheltered external applications
- **Available Finishes:** Polished Brass, Polished Chrome, Satin Chrome, Satin Stainless (please select from the options below)

Key Features

- **Medium to Heavy-Duty Performance:** Engineered for high-traffic areas where lighter-duty digital locks are insufficient.
- **Clutched Flat Bar Handle:** Fully clutched lever handle prevents damage to the internal mechanism if forced.
- **Free Passage Mode:** Optional bypass function deactivates the coding chamber for code-free entry during busy periods.
- **Mortice Nightlatch Included:** Supplied with a 60mm backset mortice nightlatch featuring a euro profile hole for key override capability.
- **Reversible Handing:** Easily configured on-site for both left and right-hand opening doors.
- **Multiple Finish Options:** Choose from Polished Brass, Polished Chrome, Satin Chrome, or Satin Stainless to suit your door's aesthetic.

Brand Profile

Borg digital locks

Borg (trading as **Borg Locks**) is a UK access-control brand best known for **mechanical, keyless push-button door and gate locks**: the classic “no batteries, no wiring, just a code” approach that’s popular for shared doors, staff entrances, plant rooms, gates, and anywhere keys inevitably get lost, copied, or ceremonially dropped down a drain.

Borg has been **designing, creating, and distributing mechanical access-control devices since 1997**, with a product line built around different duty levels and environments - from light internal use to heavy-duty commercial traffic.

The range is deliberately broad and application-led: Borg markets keypad locks for **timber doors, steel doors, aluminium doors, gates**, plus specialist lines like **fire-tested keypads** and **marine-grade/weather-resistant** options for exposed installations.

A big “Borg-ism” you’ll see repeatedly is **easy code management** - for example their **Easicode Pro (ECP)** range is designed for **on-the-door code changes** without removing the lock (useful for rentals, staff turnover, site access, etc.).
