Specification Summary

Brand	Briton
Product type	Escutcheon & Rose

Product Description

The Briton Blind Blank Escutcheon Pair (4215.8.SS) is a premium satin stainless steel accessory designed to complement Briton 4200 Series lever sets. This blank/blind escutcheon set is ideal for retrofitting projects, allowing you to cover redundant cylinder holes or provide a neat, uniform appearance on doors where no locking mechanism is installed.

Supplied as a complete pair, these escutcheons feature matching push-on covers that fully conceal the bolt-through fixings, ensuring a sleek, tamper-resistant, and professional finish. They are fire-tested to EN 1634, making them suitable for use on timber fire doors for up to 2 hours and steel fire doors for up to 4 hours. With a robust stainless steel construction and a 5-year manufacturer's guarantee, they offer reliable performance in both commercial and residential settings.

Technical Specifications

Brand Profile

Briton

Briton is a long-established UK door hardware brand best known for **door controls** and **exit hardware** used in commercial buildings where reliability and fire-safety compliance actually matter. Briton markets itself as having **over 100 years** of history in the sector, with a reputation built on “highly engineered” products designed to survive constant, unglamorous punishment in busy environments.

Today, **Briton is part of Allegion** (the global security group behind multiple access and door hardware brands). In the Allegion portfolio, Briton sits as a specialist name for door control and emergency exit solutions.

What Briton is typically associated with in the trade/spec world:

- **Overhead door closers** (including their long-running “classic” closer heritage)
- **Panic and emergency exit devices** such as push bars and push pads, designed and tested to standards like **EN 1125** (panic) and **EN 179** (emergency exit) depending on application
- A broader ecosystem that now extends into related **locks, cylinders, door furniture and accessories** under the Briton hallmark

Fun bit of heritage trivia that specs people love: [sources discussing Briton’s classic door closer lineage note early Briton closers being manufactured by William Newman & Sons Ltd in Birmingham in the 1930s, and that the traditional style still shows up in places like historic properties.](#)
