Specification Summary

Brand	Cisa
Product type	Long Shackle

Product Description

The CISA 22011 KA Long Shackle Brass Padlock offers dependable security and an extended reach, making it ideal for securing larger, awkward, or hard-to-reach fixings. Constructed with a solid brass body and a hardened steel long shackle, this padlock delivers excellent resistance against both physical attack and corrosion.

This Keyed Alike (KA) version is perfect for users requiring multiple padlocks that operate using the same key. It is highly suited for schools, commercial warehouses, and maintenance teams managing multiple access points. Each padlock is supplied with 2 keys as standard.

Available in a range of sizes, body widths, and shackle clearances, this padlock can be tailored to your specific security needs. Please select your preferred body width, shackle diameter, vertical clearance, and keyed alike suite from the options below.

Technical Specifications

- **Body Material:** Solid brass
- **Shackle Material:** Hardened steel
- **Body Width:** 30mm to 52mm (please choose from the options below)

- **Body Height:** 30mm to 40mm (please choose from the options below)
- **Body Depth:** 14.5mm to 17mm (please choose from the options below)
- **Shackle Diameter:** 5mm to 8mm (please choose from the options below)
- **Vertical Clearance:** 63mm to 127mm (please choose from the options below)
- **Horizontal Clearance:** 17mm to 29.5mm (please choose from the options below)
- **Mechanism:** 4 Pin or 5 Pin (please choose from the options below)
- **Keying:** Keyed Alike (please choose from the options below)
- **Keys Supplied:** 2 keys per lock
- **Weight:** 100g to 370g (please choose from the options below)

Key Features

- Keyed Alike convenience allows multiple padlocks to be operated by a single key
- Solid brass body provides excellent corrosion resistance for indoor and outdoor use
- Long hardened steel shackle offers greater versatility and reach for awkward applications
- Double steel ball locking mechanism for enhanced security and pull resistance
- Smooth key operation and reliable locking performance
- Ideal for gates, chains, toolboxes, lockers, and commercial premises

Brand Profile

Cisa

CISA (Costruzioni Italiane Serrature e Affini) is an iconic **Italian lock and access-control brand**, founded in **1926** by **Luigi Bucci**. It built its reputation early by **patenting the first electrically controlled lock** the same year it was founded—basically kicking the door open (politely, with a latch) on modern electromechanical access control.

Today CISA positions itself as “**CISA Italy**,” with **design and engineering made in Italy**, and a product ecosystem that spans both **mechanical and electronic security** for **residential, public, and commercial buildings**.

Ownership / group: CISA is a **strategic brand of Allegion** and has been part of the Allegion group **since 2013** (around the time Allegion became a standalone listed company).

What they're known for (in the real world, on real doors):

- **Mechanical locks and cylinders**, including solutions for master keying systems (CISA talks a lot about cylinders/keys and master-key systems production).
- **Electric / electromechanical locks** (heritage category for them), including locks designed to pair with **panic hardware** or remote electric opening in access-control setups.
- **Exit / panic devices** (their ranges are explicitly positioned around installability and reliability, and they're tracking new EU regulatory changes in their comms).
