Product Description

The Crompton 2A Medium Duty Brenton Padbolt is a robust and reliable security solution, ideal for securing gates, sheds, outbuildings, and external doors. Designed for outdoor use, this padbolt features a durable galvanised finish that provides excellent resistance against weather and corrosion.

It features a strong 13mm diameter shoot bolt, offering dependable medium-duty security. The padbolt is designed to be secured with a padlock (sold separately) for added protection. Please note that fixings are not included with this product.

This padbolt is available in a range of lengths from 10.2cm up to 25.4cm, with weights ranging from 300g to 560g. Each size option comes with a unique barcode. Please choose your preferred size and specification from the options below.

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
