Specification Summary

Brand Crompton

Product type Steel

Product Description

The Crompton 899 Double Steel Hinge is a heavy-duty, double-pressed butt hinge designed to provide exceptional strength and reliable support for demanding applications. Ideal for both residential and commercial doors, these hinges are double-pressed to offer superior durability compared to standard alternatives, making them a popular choice for heavy-use environments.

Supplied in pairs, these extra-strong hinges are available in a choice of lengths, finishes, and screw sizes to suit your specific installation requirements. Please select your preferred options from the list below.

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
