Specification Summary

Brand Crompton

Product type Hook

Product Description

The Crompton Black Cabin Hook is a practical and reliable solution for securing doors, gates, and sheds in either an open or closed position. Designed to prevent slamming or swinging during windy conditions, this non-lockable cabin hook ensures your doors remain safely in place, reducing the risk of damage.

Finished in a classic black, this cabin hook blends seamlessly with traditional and modern ironmongery. It is available in multiple lengths, weights, and barcodes to suit various door and gate sizes. Please select your preferred length, weight, and barcode from the options below to find the perfect fit for your project. Each pack contains one cabin hook with brackets, supplied bagged for convenience.

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
