Specification Summary

Brand dormakaba

Product type L1000 Series

Product Description

The weather-resistant dormakaba Simplex L1000 Series L1021B is a heavy-duty, fully mechanical digital lock solution designed for robust access control in demanding commercial and industrial environments. Because it is completely mechanical, it eliminates the ongoing maintenance, costs, and hassle of frequent battery replacements.

This high-durability lock features a vandal-resistant, 5-button metal keypad that supports over 1,000 code combinations. Authorised users can easily change the 1-to-5 digit code in seconds without removing the lock from the door. It is equipped with a protective clutch mechanism to prevent damage from forced entry attempts and features a heavy-duty deadlocking latch.

Please note: This lock is available in several configurations. You can choose between Left Hand and Right Hand operation, Polished Brass or Satin Chrome finishes, and models supplied with a cylinder (including 2 keys) or without a cylinder (where the cylinder is purchased separately). Please select your required options from the choices below.

Technical Specifications

- **Brand:** dormakaba
- **Series:** Simplex L1000 (L1021B)
- **Backset:** 70mm
- **Case Depth Required:** 110mm
- **Door Thickness:** 35mm to 57mm
- **Code Length:** 1 to 5 digits
- **Number of Codes:** 1
- **Combinations:** 1,000+
- **Latch:** Heavy-duty deadlocking latch
- **Operation Inside:** Lever handle free exit
- **Operation Outside:** Lever handle on entry of code or by key
- **Handing:** Left Hand or Right Hand (please choose from the options below)
- **Finish:** Polished Brass or Satin Chrome (please choose from the options below)
- **Key Override:** Yes (available with cylinder supplied or sold separately; please choose from the options below)
- **Keys Supplied:** 0 or 2 (dependent on cylinder option chosen; please choose from the options below)
- **Weight:** 4.2kg to 4.706kg (dependent on configuration)
- **Width:** 79mm
- **Guarantee:** 3 Year

Key Features

- **Fully Mechanical Operation:** Eliminates the need for batteries, wiring, and ongoing electrical maintenance.
- **Vandal-Resistant Keypad:** Features solid metal pushbuttons for outstanding durability in high-traffic areas.
- **Fast Code Changes:** Code can be changed quickly by authorised personnel while the unit remains fitted to the door.
- **Protective Clutch Mechanism:** Prevents damage to the lock mechanism if the outside lever is forced.
- **Weather Resistant:** Designed to withstand external environmental conditions.
- **Key Override Function:** Allows emergency access via key bypass.
- **Flexible Configurations:** Multiple finishes, handing options, and cylinder packages available to suit your specific door requirements.

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware, door closers, automatic entrances, electronic access control, and keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
