**Specification Summary**

Brand dormakaba

Product type Overhead

**Product Description**

The dormakaba (formerly Dorma) TS93 Cam Action Overhead Door Closer is a premium architectural solution designed to deliver smooth, reliable door control. Featuring dormakaba's unique heart-shaped cam and roller technology, this slide channel door closer significantly reduces the force required to open the door, making it exceptionally easy to use and ideal for accessible buildings.

This highly versatile closer offers adjustable closing force (power size EN 2-5), delayed action, hydraulic backcheck, and adjustable sweep and latching speeds, allowing you to customise its performance to your exact requirements. It is fully BS EN 1154 compliant and CERTIFIRE approved for use on fire doors, ensuring outstanding safety and performance.

The TS93 is available in both Push (TS93G) and Pull (TS93B) handed configurations to suit your specific installation needs. Please choose your preferred handed option, manufacturer reference, and barcode from the options below.

## Technical Specifications

- **Brand:** dormakaba
- **Standards:** BS EN 1154
- **Fire Tested:** CERTIFIRE approved for fire doors
- **Strength Size:** EN 2 to 5
- **Finish:** Silver Enamelled
- **Handed:** Pull or Push (please select from the options below)

## Brand Profile

dormakaba

**dormakaba** is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware, door closers, automatic entrances, electronic access control, and keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
