Specification Summary

Brand	Dortrend
Product type	Pull

Product Description

The Dortrend 5151 is a high-quality cast aluminium cranked pull handle designed for reliable performance and ease of installation. Featuring an offset (cranked) design, this handle provides comfortable hand clearance, making it an ideal choice for both commercial and residential doors.

Designed for front-fixing, the handle is secured directly to the face of the door via pre-drilled countersunk holes on the front. This face-fixed installation method ensures a straightforward and secure fitment without the need for through-bolt fixing.

Constructed from durable cast aluminium with an attractive anodised aluminium finish, the Dortrend 5151 offers excellent corrosion resistance and a clean, modern aesthetic. It is available in multiple lengths and weights to suit different door sizes. Please choose your preferred length and weight from the options below.

Technical Specifications

- **Brand:** Dortrend
- **Manufacturer Reference:** 5151
- **Material:** Cast Aluminium
- **Finish:** Anodised Aluminium
- **Fixing Type:** Front fix (face fixed via front countersunk holes)

Brand Profile

Dortrend

Dortrend is a UK manufacturer of **architectural door hardware**, best known for premium **door handles** and specialist **anti-ligature** fittings used heavily in **healthcare and mental health environments**. They're based in **Worcester** and say they've been manufacturing high-quality door handles for **50+ years**, supplying both UK and international projects (with a visible footprint across hospitals and MHUs).

What makes Dortrend stand out is the "specialist + bespoke" combo:

- A dedicated **Anti-Ligature Range** designed to reduce self-harm risk in high-dependency settings (handles, hooks, escutcheons, etc.).
- A **bespoke service** for custom hardware when off-the-shelf products won't fit the door design, compliance requirement, or aesthetic brief.
- Sector-driven thinking around **healthcare**, including product angles like hygiene-focused finishes and safe-design details.
