Specification Summary

Brand	ERA
Product type	Cylinder - Euro

Product Description

The ERA 226 & 326 Euro Sashcase (also known as the ERA Viscount) is a highly versatile mortice sashlock case designed for use with standard Euro profile cylinders. It is an ideal choice for both new installations and retrofitting, allowing you to replace most existing door locks with minimal changes to your current door fittings.

For enhanced security, the deadbolt is equipped with hardened steel rollers to resist hacksawing. The latch bolt is fully reversible, making the lockcase suitable for both left and right-hand hinged doors.

This lockcase is available in multiple configurations. You can choose between a 44mm or 56mm backset (with 65mm or 77mm case depths) and either a Polished Brass or Satin Chrome finish. Please select your required backset, case depth, and finish from the options below.

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that’s basically the spiritual capital of British lockmaking.

These days ERA positions itself as a “home security expert” that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware, window hardware, smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you’ll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex’s acquisition of Tyman.
