Product Description

The ERA Knobset Adjustable Latch Bolt is a high-quality replacement tubular latch designed specifically for use with ERA Passage, Entrance, and Privacy knobsets. This versatile latch features an adjustable backset, allowing you to easily switch between 60mm and 70mm configurations to suit your specific door preparation.

Engineered for straightforward installation, it is a non-handed component, meaning it can be fitted to both left and right-handed doors without hassle. Finished in polished brass, it offers a clean, professional look that seamlessly matches your existing door hardware. Whether you are replacing a worn latch or installing a new ERA knobset, this adjustable latch bolt provides reliable, smooth operation.

Brand Profile

ERA

The image shows the ERA logo, which consists of the letters 'ERA' in a bold, red, sans-serif font. The logo is centered within a white rectangular box, which is itself set against a light blue background.

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a “home security expert” that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware, window hardware, smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
