RM SIZE 5.....	50mm
RM SIZE 6.....	60mm

Product Description

The EVVA A5 RM1 Screw-In Cylinder is a high-quality 5-pin rim cylinder designed for reliable security and smooth operation. Featuring an unrestricted 'A' section key profile (with 'F' section available to special order), this cylinder is supplied with 3 keys as standard. It has been tested for up to 30 minutes of fire resistance at temperatures up to 821°C, making it a robust choice for both residential and commercial applications.

This cylinder is available in multiple options, including Keyed To Differ (single cylinder) or as a Keyed Alike Pair, with weights ranging from 205g to 410g. Please choose your preferred keying configuration, manufacturer reference, and barcode from the options below.

A range of optional special features can also be specified to suit your security requirements, including construction keying (CMK), ABC Vario (VAR), sea water protection (SEW), bump resistance (SG-A), and plug pulling protection (ARS/KZS). Please contact our team for more information on these bespoke options.

Technical Specifications

- **Brand:** EVVA
- **Cylinder System:** A5
- **Cylinder Type:** Screw-In
- **Body Length:** 25mm (25.3mm overall cylinder length)
- **Mechanism:** 5 Pin
- **Finish:** Nickel Plated
- **Key Profile:** Unrestricted 'A' section (F section available to special order)
- **Fire Resistance:** Tested for 30 minutes to 821°C
- **Keys Supplied:** 3
- **Keying Options:** Keyed To Differ or Keyed Alike Pair (please choose from the options below)
- **Weight:** 205g to 410g (please choose from the options below)

Key Features

- **Fire Tested:** Tested for 30-minute fire resistance up to 821°C.
- **Flexible Keying Options:** Available in Keyed To Differ or Keyed Alike Pair configurations to suit your installation needs.
- **Unrestricted Key Profile:** Supplied with an 'A' section key profile as standard, with 'F' section available to special order.
- **Optional Upgrades:** Can be customized with special features such as bump resistance, sea water protection, and plug pulling protection (contact us for details).
- **Ready to Install:** Supplied complete with 3 keys as standard.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as “start-up energy since 1919” (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
