Specification Summary

Brand	Evva
Product type	Scandinavian Oval

Product Description

The EVVA A5 Scandinavian Oval Cylinder is a reliable 5-pin locking cylinder designed for use with Scandinavian-style lock cases. Offering a practical and secure solution for both residential and commercial doors, this cylinder features an unrestricted 'A' section key profile and is built to EVVA's high manufacturing standards.

This cylinder is highly versatile and available in several configurations to suit your specific installation needs. Customers can choose between a single external cylinder (Keyed to Differ) or a Keyed Alike Pair (comprising an external SKA and internal SKI cylinder). Additionally, it is available in two high-quality finishes: Polished Brass and Nickel Plated. Please select your preferred finish, keying option, barcode, and manufacturer reference from the options below.

Each cylinder is supplied with 3 keys as standard, with in-house key cutting and master keying options available to meet your custom requirements.

Technical Specifications

- **Brand:** EVVA
- **Cylinder Profile:** Scandinavian Oval

- **Cylinder System:** Evva A5
- **Mechanism:** 5 Pin
- **Body Length:** 26mm
- **Finishes:** Nickel Plated or Polished Brass (please choose from the options below)
- **Keying:** Keyed To Differ or Keyed Alike Pair (please choose from the options below)
- **Keys Supplied:** 3
- **Fire Tested:** Grade 0
- **Weight:** 160g
- **Manufacturer Reference:** A5 SKA KD or A5 SKA/SKI KD (please choose from the options below)
- **Barcode:** Multiple options available (please choose from the options below)

Key Features

- **Versatile Configurations:** Available as a single external cylinder or a keyed alike pair to suit different door setups.
- **Premium Finishes:** Choose between Polished Brass and Nickel Plated to match your existing door hardware.
- **Reliable 5-Pin Mechanism:** Provides dependable security and smooth key operation.
- **Standard Keys Included:** Supplied with 3 keys as standard.
- **In-House Services:** Key cutting and master keying (MK) services available in-house.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as “start-up energy since 1919” (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
