Specification Summary

Brand	Evva
Product type	Camlock Proximity Cylinder

Product Description

The EVVA AirKey Proximity Cam Lock is an innovative, high-security electronic locking solution designed for both metal and wooden applications, such as display cabinets, lockers, and post boxes. This smart cam lock serves as an ideal replacement for standard mechanical cam locks, bringing advanced access control to your storage units.

Access can be easily managed and granted using NFC-compatible smartphones (Android and iPhone), Bluetooth, or EVVA AirKey key cards. With the AirKey system, virtual keys can be sent securely via SMS text messages with push notifications, allowing for convenient remote management.

Built to withstand demanding environments, the cylinder is IP65-rated, making it suitable for both indoor and outdoor installations across a temperature range of -20°C to +55°C. It features a modular design for future adaptation and is plug-pulling resistant for enhanced physical security.

This cam lock is available in multiple body lengths and finishes, with corresponding manufacturer references and barcodes. Please select your required size and finish from the options below.

Technical Specifications

- **Brand:** EVVA
- **Body Length:** 23mm or 27mm (please select from the options below)
- **Finish:** Nickel Plated or Polished Brass (please select from the options below)
- **IP Rating:** IP65 (weatherproof)
- **Operating Temperature:** -20°C to +55°C
- **Power Supply:** 2 x CR2 batteries (included)
- **Battery Life:** Up to 30,000 operations
- **Audit Trail:** Stores the last 1,000 events
- **Knob Diameter:** 39mm
- **Knob Projection:** 45mm
- **Handing:** Reversible
- **Standards:** CE Marked
- **Key Override:** No
- **Manufacturer Reference:** Multiple options available (please select from the options below)
- **Barcode:** Multiple options available (please select from the options below)

Key Features

- **Smart Access Control:** Open using NFC-compatible smartphones, Bluetooth, or EVVA AirKey key cards.
- **Flexible Management:** Send keys remotely via SMS text messages with push notification alerts.
- **Weatherproof Design:** IP65 rated for reliable indoor and outdoor use.
- **Physical Security:** Plug-pulling resistant cylinder design.
- **Modular Cylinder:** Allows for easy future adaptation and length adjustments.
- **Versatile Application:** Ideal for both wood and metal cabinets, lockers, and display cases.
- **Long Battery Life:** Supplied with easily replaceable CR2 batteries providing up to 30,000 cycles.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as “start-up energy since 1919” (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
