Is Cylinder

### Product Description

The EVVA EPSnp KDZ Key & Turn Euro Cylinder is a high-security, patent-protected mechanical locking solution designed to offer exceptional security and convenience. Supplied as a keyed to differ set on our in-house section, this cylinder comes complete with three keys. It is patent-protected until 2041, ensuring long-term legal and technical protection against unauthorised key copying.

This versatile cylinder is highly wear and drill resistant, meeting the highest security standards. It complies with EN 1303:2005 attack resistance grade 2 and lock security grade 6. It is also fire-tested to Grade B (BS EN 1634).

We offer this cylinder in a range of sizes. The overall cylinder sizes range from 31/T31 to 41/T41, with overall body lengths from 62mm to 82mm. Please choose your required dimensions from the options below.

A wide array of optional special features can be requested for this cylinder, including anti-barricade clutch cams (SOS), 3\* snap resistance (BSI), cog wheel cams (Z), classroom functions (CLA), and sea water protection (SEW). Please contact us for more information on these custom configurations.

## Technical Specifications

- **Brand:** EVVA
- **System:** EPS (Extended Profile System)
- **Cylinder Type:** Key & Turn Euro Cylinder
- **Keying:** Keyed to Differ
- **Mechanism:** 6-pin
- **Finish:** Nickel Plated
- **Keys Supplied:** 3
- **Standards:** BS EN 1303:2005, BS EN 1634 (Fire Tested Grade B)
- **Overall Sizes Available:** 31/T31, 36/T36, and 41/T41 (please select below)
- **Body Lengths Available:** 62mm, 72mm, and 82mm (please select below)

## Key Features

- **Patent Protected:** Long-term legal and technical key protection until 2041 to prevent unauthorised key duplication.
- **High Security Standards:** Complies with the highest EN 1303:2005 classifications (Grade 2 attack resistance and Grade 6 lock security).
- **Robust Resistance:** Designed to be highly wear, drill, and manipulation resistant.
- **Key Registration:** Keys can be registered online via the EVVA website for enhanced security and tracking.
- **Customisable Options:** Available with optional special features such as SOS clutch cams, cog wheel cams, and sea water protection upon request.

## Brand Profile

Evva

**EVVA** is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as “start-up energy since 1919” (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
