Specification Summary

Brand	Evva
Product type	Open Shackle

Product Description

With a solid brass body and hardened steel shackle, the EVVA H24 and H30 padlocks are a highly robust choice of open shackle padlock. These padlocks are supplied 1-bitted and can be keyed alike or master keyed in-house to suit your specific security requirements.

These padlocks are available in a range of configurations. You can choose from multiple body widths (45mm or 55mm), weights (300g or 450g), cylinder systems (including Evva A5 and Evva GPI), manufacturer references (such as H24, H24 Unassembled, or H30 Unassembled), and packaging notes. Please select your preferred options from the choices below.

A range of optional special features can be specified for these padlocks, including Construction Keying (CMK), ABC Vario (VAR), Additional Numbering (TXT), Sea Water Protection (SEW), Bump Resistance (SG-A), Adapted Entry (FLEX), and Plug Pulling Protection (ARS/KZS). Please contact us for more information on these custom options.

Technical Specifications

- **Body Material:** Solid brass
- **Shackle Material:** Hardened steel

- **Shackle Type:** Open shackle
- **Body Width:** 45mm or 55mm (please choose from the options below)
- **Cylinder System:** Evva A5 or Evva GPI (please choose from the options below)
- **Manufacturer Reference:** H24 Padlock, H24 Unassembled Padlock, or H30 Unassembled Padlock (please choose from the options below)
- **Keying:** 1 Bitted (can be keyed alike or master keyed in-house)
- **Fire Tested:** Grade 0
- **Weight:** 300g or 450g (please choose from the options below)
- **Packaging:** Boxed

Key Features

- **Robust Construction:** Features a solid brass body and a hardened steel shackle for reliable physical security.
- **Key Retention:** Key withdrawal is only possible when the padlock is fully locked, preventing accidental unlocked status.
- **Flexible Keying Options:** Supplied 1-bitted and can be keyed alike or master keyed in-house to suit your security system.
- **Versatile Range:** Available in multiple body widths, weights, and cylinder systems to match your requirements.
- **Optional Upgrades:** Can be ordered with special features such as sea water protection, bump resistance, and plug pulling protection (please contact us for details).

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as “start-up energy since 1919” (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
